CAREER OBJECTIVE

AI Engineering Intern with strong proficiency in Python, AI agents, LLM-based systems, REST APIs, and cloud-ready architectures. Passionate about building AI-assisted platforms, rapid prototypes, and secure integrations using AI tools and Microsoft Azure fundamentals. Seeking to contribute to SYplat's end-to-end platform development across AI, APIs, cloud services, and observability.

EDUCATION

ANNAMACHARYA INSTITUTE OF TECHNOLOGIES AND SCIENCES

2022–2026

B.Tech – Artificial Intelligence and Machine Learning, **CGPA: 7.3**

2020-2022

NARAYANA JUNIOR COLLEGE

MPC, **Percentage: 81.4**

SKILL

- Artificial Intelligence & LLMs
- AI Agents & Automation(n8n,Research Agent)
- Python Programming
- Data Structures
- Microsoft Azure
- REST APIs & Backend Development

INTERNSHIP EXPERIENCE

Python AI/ML Developer Intern – BiotechWallah (Remote)

FEB 2025 – MAY 2025

- Developed AI-enabled backend services using Python and REST APIs.
- Used LLMs and AI tools for code generation, testing, and documentation.
- Built reusable AI/ML components and workflows.
- Implemented basic logging, validation, and error handling.
- Worked in Agile-style development with regular reviews and documentation.

PROJECTS

AI CODE GENERATOR (LLM-BASED)

- Built an AI system that creates ready-to-use code across multiple languages.
- Designed prompt workflows and reusable AI parts.

Tech: Python, LangChain, LLMs

RESEARCH AGENT (CREWAI)

- Developed smart agents for research, analysis, and summaries.
- Set up multi-agent patterns.

Tech: Python, CrewAI

RUDRA VOICE ASSISTANT (V1 & V2)

- Created an assistant for task automation and system control.
- Improved reliability through better input checks and structured steps.

Tech: Python, AI, Automation

CERTIFICATIONS

- PYTHON AI/ML DEVELOPER – INTERNSHIP CERTIFICATE
- NPTEL – PYTHON PROGRAMMING
